

“BONUS BINGO” RULES

THE EVENT: On Mondays, Casino Oklahoma will play a promotional-style bingo game with patrons who are members of the Players Club. Players must earn 15 same-day points to receive their bingo card. The game will be played by issuing casino players standard 3-on punchout bingo cards. The ball call will utilize a standard set of bingo balls and “squirrel cage” device for mixing of balls between ball draws. Announcer will call out bingo numbers over the casino public address system.

RULES:

- Guests must be a member in good standing of the Players Club to participate.
- Must earn 15 same day points to participate.
- Only one card per player. Anyone found playing with more than one card will be ineligible to participate in Bonus Bingo for the rest of the evening.
- Replacement cards may be issued by returning original card to Players Club for a new one.
- In order for Player to have a valid Bingo, they must get the attention of the caller before another number is called. A players winning bingo will be declared invalid if the caller announces the next number.

The period of this promotion will be every Monday, beginning July 1st, 2024, and will continue until cancelled. Each Monday there will be a single 9-game promotional bingo session that will consist of a total of nine (9) bingo games. There are two game types each promotional period; a single line game format and a blackout format that has a higher prize format. Promotional Bingo games will be played at the following approximate times each Monday:

- Game 1: 5:00 p.m. (Single Line Game)
- Game 2: 5:20 p.m. (Single Line Game)
- Game 3: 5:40 p.m. (Single Line Game)
- Game 4: 6:00 p.m. (Single Line Game)
- Game 5: 6:20 p.m. (Single Line Game)
- Game 6: 6:40 p.m. (Single Line Game)
- Game 7: 7:00 p.m. (Single Line Game)
- Game 8: 7:20 p.m. (Single Line Game)
- Game 9: 7:40 p.m. (Single Line Game)
- Game 10: 8:00 p.m. (Blackout Game: Progressive Bonus Eligible)

At each game time, bingo balls will be drawn and called in succession until a winner is determined. The player or players who identify they have achieved the desired bingo pattern and identify themselves with a vocal call of “BINGO” to gaming floor staff will be the eligible winners.

Once players identify themselves as having a possible Bingo, casino staff will verify the numbers the player has “covered” on their card corresponds accurately to the balls called during the game. Once verified the BINGO is valid, the prize will be awarded based on the schedule.

Single Line Games: The winner of each “Bonus Bingo” single line game will be the first contestant(s) to achieve a 5-spot pattern in a direct line across, down or diagonally on their bingo card. Bingo patterns that include the “free space” are valid Bingos. Winners of each single line Bingo game will receive \$50 in free play. When multiple players “BINGO” on the same ball called, each player with a valid bingo on the final ball called will receive \$50 free play.

Blackout Bonus Games: The winner of each “Bonus Bingo” blackout game will be the first contestant(s) to achieve a “blackout”, or cover of all the numbers on their bingo card that correspond with the balls called. Payouts on the Blackout bonus games can vary based on whether or not the parameter required to trigger the progressive bonus award are met (blackout within that week’s number of balls called for the progressive amount). When the progressive parameters are achieved, the winning payout is the Progressive Bonus value. When the parameter required to trigger the progressive bonus payout are not met, the winner(s) of the “Black Out Progressive Game” receives \$500 cash. In the case there are multiple winners on the same ball called, prizes for the Blackout bonus games are split evenly amongst all winners.

“Progressive Rules” for triggering the Blackout Bonus Progressive during the 8PM game:

The Blackout Bonus Progressive prize will be seeded at \$1,000 cash and grow by \$500 cash after each Blackout Bonus Game during which the parameters required to trigger the progressive payout are not met. The progressive jackpot begins with 50 balls being drawn with an additional ball being drawn each week until a contestant wins the progressive jackpot.

To trigger the Blackout Bonus Progressive payout, the winning player must achieve the blackout pattern on their bingo card on or before the drawing of a specified ball. The # of eligible balls to be called in order to trigger the bonus payout will increase subsequent to each Blackout Bonus game during which the Bonus Progressive is not triggered. In order for a player to have a valid Bingo, a player must yell BINGO on the last number called. This means when the caller verbally announces the last number needed to complete the blackout, the players must yell BINGO! It is the players responsibility to get the attention of the caller before the next number is called. A players winning Bingo will be declared invalid if the caller announces the next number and any prize will be forfeited. The caller will then call numbers until there is another winner.

The initial starting point for the Blackout Bonus Progressive will be \$1,000 prize IF the winning player(s) achieves a blackout card on or before the call of the 50th ball out of the hopper. If this condition is not met, the next Blackout Bonus game will have a \$1,500 prize and the payout will be triggered only if the winning player(s) achieves a blackout card on or before the call of the 51st ball. This will continue, so on and so forth, until such time the Blackout Bonus Progressive is triggered.

At such point the Blackout Bonus Progressive prize is won, the prize amount will reset to \$1,000 and the number of balls called required to trigger the bonus will reset to 50 and the same progressive process would begin again.

Example 1

To make certain the Blackout Bonus Progressive prize is awarded and prizing is exhausted at the end of the promotion, the 9PM game on the last promo night will NOT be subject to the specific ball requirement. For that particular game, the winner will be the first player(s) who achieve a blackout bingo pattern, regardless of the number of balls required to be called in order to achieve it. (There is not currently an end date to this promotion therefore there is no scheduled “must-go” progressive set.

PRIZES:

Prizes for this promotion include \$50 in free play for “Single Line” games, and \$500 cash or the Blackout Progressive Bonus when specific play outcomes are achieved by blacking out a player’s Bingo card within a specific number of balls being drawn. (See “Progressive Rules”).
